**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Amounts in thousands, except share data)**  
**(unaudited)**

**1. Summary of significant accounting policies**

***(a) Basis of preparation and liquidity***

The accompanying unaudited condensed consolidated financial statements have been prepared by Fluent, Inc., formerly known as Cogint, Inc., a Delaware corporation (the "Company" or "Fluent"), in accordance with accounting principles generally accepted in the United States ("US GAAP") and applicable rules and regulations of the Securities and Exchange Commission (the "SEC") regarding interim financial reporting. Certain information and note disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to those rules and regulations.

The accompanying unaudited condensed consolidated financial statements reflect all normal recurring adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for any future interim periods or for the full year ending December 31, 2018.

The information included in this quarterly report on Form 10-Q should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Form 10-K") filed with the SEC on March 14, 2018.

The condensed consolidated balance sheet as of December 31, 2017 included herein was derived from the audited financial statements as of that date included in the 2017 Form 10-K, but does not include all disclosures required by US GAAP.

*Principles of consolidation*

The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries. All significant transactions among the Company and its subsidiaries have been eliminated upon consolidation.

*Spin-off of red violet*

On March 26, 2018, Fluent completed the previously announced spin-off (the "Spin-off") of its risk management business from its digital marketing business by way of a distribution of all the shares of common stock of Fluent's wholly-owned subsidiary, Red Violet, Inc. ("red violet"), to Fluent's stockholders of record as of March 19, 2018 (the "Record Date") and certain warrant holders. The distribution occurred by way of a pro rata distribution to such common stock and warrant holders, each of whom received one share of red violet's common stock for every 7.5 shares of Fluent's common stock held on the Record Date or to which they were entitled under their warrants.

Following the Spin-off of red violet, Fluent common stock continued trading on The NASDAQ Stock Market ("NASDAQ"), and red violet became an independent public company, also listed on NASDAQ. red violet owns all of the former Fluent subsidiaries that operated the Company's former risk management business.

In accordance with Accounting Standards Codification ("ASC") 205-20, "*Discontinued Operations*," the results of red violet are reflected in Fluent's condensed consolidated financial statements as discontinued operations and, therefore, are presented as assets and liabilities of discontinued operations on the condensed consolidated balance sheet, loss from discontinued operations on the condensed consolidated statements of operations and cash activity from discontinued operations on the condensed consolidated statements of cash flows. See Note 3, "*Discontinued operations*," for details.

*Reclassifications*

Certain amounts in the prior year's condensed consolidated financial statements and related footnotes thereto have been reclassified to conform with the current year presentation as a result of the Spin-off of red violet. See Note 3, "*Discontinued operations*," for details.

The Company has reclassified certain trade-related accruals from accounts payable (previously trade accounts payable) into accrued expenses and other current liabilities. As a result, accounts payable decreased by \$3,258 to \$7,408, and accrued expenses and other current liabilities increased by \$3,258 to \$14,967 as of December 31, 2017 in the condensed consolidated financial statements. Additionally, within cash flows from operating activities on the condensed consolidated statements of cash flows, for the nine months

FLUENT, INC.

(Amounts in thousands, except share data)  
(unaudited)

ended September 30, 2017, the decrease in accounts payable increased by \$5,043 to \$7,464, and the increase in accrued expenses and other current liabilities increased by \$5,043 to \$8,900.

In addition, the Company has reclassified the cost of revenue (exclusive of depreciation and amortization) amounts from the gross profit section, as presented in previous filings, to the costs and expenses section of the condensed consolidated statements of operations for each period presented and the gross profit subtotal has been removed. As a result, total costs and expenses have increased by \$35,732, to \$63,277, for the three months ended September 30, 2017 and by \$104,310, to \$176,938, for the nine months ended September 30, 2017.

**(b) Recently issued and adopted accounting standards**

In May 2014, Financial Accounting Standards Board ("FASB") issued ASU No. 2014-9 ("ASU 2014-9"), "*Revenue from Contracts with Customers (Topic 606)*" and additional changes, modifications, clarifications or interpretations thereafter. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The guidance includes indicators to assist an entity in evaluating whether it controls the good or service before it is transferred to the customer. The new revenue recognition standard is effective for public entities for annual reporting periods beginning after December 15, 2017, and interim periods therein. The new standard also permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the modified retrospective method). The Company adopted Topic 606 as of January 1, 2018 using the modified retrospective method, and the adoption did not have a material impact on the consolidated balance sheets, statements of operations, or cash flows. Refer to Note 1(c) below for further details.

In February 2016, FASB issued ASU No. 2016-2 ("ASU 2016-2"), "*Leases (Topic 842)*" and additional changes, modifications, clarifications or interpretations thereafter, which generally require companies to recognize operating and financing lease liabilities and corresponding right-of-use assets on the balance sheet. This guidance will be effective in the first quarter of 2019 on a modified retrospective basis and early adoption is permitted. Upon adoption of this standard, the Company expects to recognize, on a discounted basis, its minimum commitments under noncancelable operating leases on its consolidated balance sheets, resulting in the recording of right-of-use assets and lease obligations.

In August 2016, FASB issued ASU No. 2016-15 ("ASU 2016-15"), "*Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*," which provides guidance for certain cash flow issues, including contingent consideration payments made after a business combination and debt prepayment or debt extinguishment costs, among other areas. The guidance is effective for public entities for fiscal years beginning after December 15, 2017 and interim periods therein, and early adoption is permitted. The Company adopted ASU 2016-15 during the first quarter of 2018, noting no material impact to its condensed consolidated financial statements.

In March 2018, the FASB issued ASU No. 2018-5 ("ASU 2018-5"), "*Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118*." ASU 2018-5 amended ASC Topic 740, *Income Taxes* ("ASC 740"), to reflect SEC Staff Accounting Bulletin No. 118 ("SAB 118"), which provides guidance on accounting for the impact of the tax reform legislation commonly known as the Tax Cuts and Jobs Act of 2017 (the "Tax Act"). The amendments in ASU 2018-5 are effective upon issuance.

The Company adopted SAB 118 in the fourth quarter of 2017, and therefore the Company's subsequent adoption of ASU 2018-5 in the first quarter of 2018 had no impact on its accounting for income taxes in the first quarter of 2018. Additional information regarding the accounting for income taxes for the effects of the Tax Act is contained in Note 7, "*Income Taxes*."

In June 2018, the FASB issued ASU 2018-7 ("ASU 2018-7"), "*Compensation-Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting*," expanding the scope of employee share-based payment guidance under ASC Topic 718, to include share-based payments to nonemployees for goods and services. The guidance is effective for public entities for fiscal years beginning after December 15, 2018 and interim periods therein, and early adoption is permitted. The Company adopted ASU 2018-7 during the second quarter of 2018 on a modified retrospective basis, noting no material impact to its condensed consolidated financial statements.

**(c) Revenue recognition**

On January 1, 2018, the Company adopted ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, using the modified retrospective method applied to all contracts that were not completed contracts at the date of initial application. There was no impact

**FLUENT, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**(Amounts in thousands, except share data)**  
**(unaudited)**

on the opening balance of accumulated deficit on the condensed consolidated balance sheet and statement of changes in shareholders' equity as of January 1, 2018 due to the adoption of Topic 606.

Revenue is recognized when control of goods or services is transferred to customers, in amounts that reflect the consideration the Company expects to be entitled to in exchange for those goods or services. The Company's performance obligation is typically to (a) deliver data records, based on predefined qualifying characteristics specified by the customer or (b) generate conversions, based on predefined user actions (for example, a click, a registration, the installation of an app or the printing of a coupon) and subject to certain qualifying characteristics specified by the customer.

The Company has applied the portfolio approach practical expedient in accounting for customer revenue as one collective group, rather than individual contracts. Based on historical knowledge of the contracts contained in this portfolio and the similar nature and characteristics of the customers, the Company has concluded the financial statement effects are not materially different than accounting for revenue on a contract-by-contract basis.

Revenue is recognized upon satisfaction of the associated performance obligations. The Company's customers simultaneously receive and consume the benefits provided by the performance as the Company performs. Furthermore, the Company elected the "right to invoice" practical expedient available within ASC 606-10-55-18 as the measure of progress, since the Company has a right to payment from a customer in an amount that corresponds directly with the value of the performance completed to date. The Company's revenue arrangements do not contain significant financing components.

If a customer pays consideration before the Company's performance obligations are satisfied, those amounts are classified as deferred revenue. As of September 30, 2018 and December 31, 2017, the balance of deferred revenue was \$714 and \$265, respectively. The deferred revenue balance as of December 31, 2017 was fully recognized into revenue during the first quarter of 2018.

If there is a delay between the period in which revenue is recognized and when customer invoices are issued, revenue is recognized and related amounts are recorded as unbilled revenue in accounts receivable. As of September 30, 2018 and December 31, 2017, unbilled revenue included in accounts receivable totaled \$20,242 and \$16,238, respectively. In line with industry practice, the unbilled revenue balance is recorded based on the Company's internally tracked conversions, net of estimated variances between this amount and the amount tracked and subsequently confirmed by customers. The majority of invoices included within the unbilled revenue balance are issued within the month directly following the period of service.

Sales commissions are recorded at the time revenue is recognized and recorded in sales and marketing expenses.

In addition, the Company elected the practical expedient to not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which revenue is recognized at the amount to which the Company has the right to invoice for services performed.

## **2. Earnings (Loss) per share**

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock and is calculated using the treasury stock method for stock options, restricted stock units ("RSUs"), restricted stock, warrants and deferred common stock. Common equivalent shares are excluded from the calculation in loss periods, as their effects would be anti-dilutive.

**3. Discontinued operations**

As discussed in Note 1(a), "Spin-off of red violet," on March 26, 2018, the Company completed the Spin-off of red violet.

The results of red violet are reflected in Fluent's condensed consolidated financial statements as discontinued operations and, therefore, are presented as assets and liabilities of discontinued operations on the condensed consolidated balance sheets, loss from discontinued operations on the condensed consolidated statements of operations and cash activity from discontinued operations on the condensed consolidated statements of cash flows. As a result of the Spin-off, the Company's additional paid-in capital was decreased by the net assets of red violet of \$41,500, as of the effective date of the Spin-off.

The following financial information presents the results of operations of red violet for the three and nine months ended September 30, 2018 and 2017:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017

Net loss from discontinued operations	\$ —	\$ (3,334)	\$ (21,124)	\$ (18,360)

Included in the net loss from discontinued operations is a loss on disposal of discontinued operations of \$19,040 for the nine months ended September 30, 2018, as presented below. Of this amount, an aggregate of \$16,030 represents non-cash charges.

(In thousands)	Three Months Ended September 30, 2018	Nine Months Ended September 30, 2018

Spin-off related employee compensation	—	998
Loss on disposal of discontinued operations	\$ —	\$ 19,040

- (1) As discussed and defined in Note 9, "Share-based compensation," share-based compensation expense represents non-cash expense in connection with the Acceleration of certain previously outstanding but unvested stock options, RSUs and restricted stock and additional Spin-off Grants, in connection with the Spin-off.
- (2) As discussed in Note 6, "Long-term debt, net," in connection with the Spin-off, the Company repaid the Promissory Notes to certain shareholders, which resulted in a write-off of unamortized debt costs of \$284.

In addition, during the first quarter of 2018, in connection with the Spin-off of red violet, an aggregate of \$7,708 was recognized in costs and expenses from continuing operations as spin-off transaction costs, including non-cash share-based compensation expense of \$5,409 as a result of 2,041,000 shares of Transaction Grants (as defined in Note 9, "Share-based compensation"), and employee cash compensation of \$2,299.

Databases		21,622	24,328
Non-competition agreements		155	655
<b>Total net intangible assets</b>		<b>\$ 66,065</b>	<b>\$ 74,354</b>

The gross amounts associated with software developed for internal use primarily represent capitalized costs of internally developed software. The amounts relating to acquired proprietary technology, customer relationships, trade names, domain names, databases and non-competition agreements primarily represent the fair values of intangible assets acquired as a result of the acquisition of Fluent, LLC ("Fluent LLC") effective on December 8, 2015 (the "Fluent LLC Acquisition") and the acquisition of Q Interactive, LLC ("Q Interactive") effective on June 8, 2016 (the "Q Interactive Acquisition").

On January 18, 2017, the Company's management and Board of Directors approved a plan to merge and fully integrate Q Interactive's business into Fluent LLC (the "Q Interactive Integration"). As a result, the remaining balance of long-lived assets of \$3,626, relating primarily to the acquired proprietary technology and trade names acquired in the Q Interactive Acquisition, was written off to costs and expenses as a write-off of long-lived assets during the first quarter of 2017.

Amortization expense of \$3,228 and \$3,146 for the three months ended and \$9,653 and \$9,404 for the nine months ended September 30, 2018 and 2017, respectively, were included in depreciation and amortization expenses. As of September 30, 2018, intangible assets with the carrying amount of \$2,101, included in the gross amount of software developed for internal use, have not started amortization, as they are not ready for their intended use.

<b>Total</b>	<b>\$ 66,065</b>

### 5. Goodwill

Goodwill represents the cost in excess of fair value of net assets acquired in a business combination. Prior to the Spin-off of red violet, the total balance of goodwill was \$166,256, as a result of the acquisition of Interactive Data, LLC effective on October 2, 2014, the Fluent LLC Acquisition and the Q Interactive Acquisition.

In connection with the Spin-off of red violet, goodwill of \$6,465 was derecognized, based on the relative fair value of red violet's portion of the Information Services reporting unit as compared to the total estimated fair value of the Information Services reporting unit. As of December 31, 2017, the amount was reclassified into non-current assets of discontinued operations in the condensed consolidated balance sheets.

In accordance with ASC Topic 350, "Intangibles - Goodwill and Other," goodwill is tested at least annually for impairment, or when events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable, by assessing qualitative factors or performing a quantitative analysis in determining whether it is more likely than not that its fair value exceeds the carrying value. The measurement date of the Company's annual goodwill impairment test is October 1.

For the nine months ended September 30, 2018, there were no events or changes in circumstances to indicate that goodwill is impaired.

*Term Loans*

On December 8, 2015, Fluent LLC entered into an agreement ("Credit Agreement") with certain financial institutions and the administrative agent (collectively, "Whitehorse") for a term loan in the amount of \$45.0 million ("Term Loan").

The Credit Agreement provided for certain customary mandatory prepayments upon certain events as well as certain prepayment premiums during the first four years of the Term Loan, provided that the prepayment premiums were not applicable to scheduled payments of principal, the required excess cash flow payments (as defined in the Credit Agreement) and certain other required prepayments.

On January 19, 2017, Fluent LLC entered into Amendment No. 3 to Credit Agreement ("Amendment No. 3"), amending the Term Loan. Amendment No. 3, among other things, provided for a new term loan in the principal amount of \$15.0 million ("Incremental Term Loan"), subject to the terms and conditions of Amendment No. 3, and modified certain other Credit Agreement provisions, including certain financial covenants and related definitions. The entire Incremental Term Loan of \$14,039, net of debt issuance costs of \$961, was received on February 1, 2017.

The Term Loan and Incremental Term Loan (collectively, the "Term Loans") were guaranteed by the Company and all of its direct and indirect subsidiaries and were secured by substantially all of the assets of the Company and its direct and indirect subsidiaries, including Fluent LLC, in each case, on an equal and ratable basis. The Term Loans accrued interest at the rate of: (a) either, at Fluent's option, LIBOR (subject to a floor of 0.50%) plus 10.5% per annum, or base rate (generally equivalent to the U.S. prime rate) plus 9.5% per annum, payable in cash, plus (b) 1% per annum, payable, at Fluent's option, either in cash or in-kind. Payments of principal on the Term Loans were \$688 per quarter, payable at the end of each calendar quarter, commencing on March 31, 2017. The Term Loans were scheduled to mature on December 8, 2020.

On March 26, 2018, the remaining principal amount of the Term Loans was prepaid through the Refinancing, as defined below, in connection with the Spin-off of red violet.

*Promissory Notes*

On December 8, 2015, the Company entered into and consummated the promissory notes financing (the "Promissory Notes") with each of Frost Gamma Investment Trust ("Frost Gamma"), an affiliate of Phillip Frost, M.D., the Vice Chairman of the Company's Board of Directors prior to the Spin-off, Michael Brauser, the then Executive Chairman of the Board of Directors, and another investor, pursuant to which the Company issued Promissory Notes of \$5.0 million to Frost Gamma, \$4.0 million to Michael Brauser, and \$1.0 million to another investor, for an aggregate financing in the amount of \$10.0 million. The Promissory Notes carried an interest rate of 10% per annum, which was capitalized monthly and added to the outstanding principal amount of such Promissory Notes.

Under the terms of the Promissory Notes, the Company was required to repay the principal and all accrued interest six months after the repayment of all amounts due under the Credit Agreement, except that the Company had the option to repay the Promissory Notes earlier from the proceeds of a public equity financing. During the first quarter of 2017, the Company made a cash payment of accrued paid-in-kind ("PIK") interest of \$533, \$426, and \$107 to Frost Gamma, Michael Brauser and another investor, respectively.

**FLUENT, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
(Amounts in thousands, except share data)  
(unaudited)

The net balance of Promissory Notes was presented as promissory notes payable to certain shareholders, net, on the condensed consolidated balance sheet as of December 31, 2017. On March 26, 2018, the remaining principal amount plus accrued PIK interest of the Promissory Notes was fully repaid through the Refinancing, as discussed below, in connection with the Spin-off of red violet. The unamortized debt costs of \$284 pertaining to the Promissory Notes as of March 26, 2018 were written off into loss on disposal of discontinued operations. See Note 3, "Discontinued operations," for details.

*Refinanced Term Loan*

In connection with the Spin-off of red violet, Fluent LLC refinanced and fully repaid the Term Loans and Promissory Notes with a new term loan in the amount of \$70.0 million ("Refinanced Term Loan"), pursuant to a Limited Consent and Amendment No. 6 to the Credit Agreement effective on March 26, 2018 (the "Amendment No. 6") (the "Refinancing").

The Refinanced Term Loan is guaranteed by the Company and its direct and indirect subsidiaries, and secured by substantially all of the assets of the Company and its direct and indirect subsidiaries, including Fluent LLC, in each case, on an equal and ratable basis. The Refinanced Term Loan accrues interest at the rate of either, at Fluent's option, (a) LIBOR (subject to a floor of 0.50%) plus 7.00% per annum, or (b) base rate plus 6.0% per annum, payable in cash. Interest under the Refinanced Term Loan is payable monthly. The fair value of the Company's debt will generally fluctuate with movements of interest rates, increasing in periods of declining rates of interest and declining in periods of rising rates of interest. Scheduled principal amortization of the Refinanced Term Loan is \$875 per quarter, commencing with the fiscal quarter ended June 30, 2018. The Refinanced Term Loan matures on March 26, 2023.

On March 26, 2018, the Refinanced Term Loan was utilized to repay in full the outstanding principal amount plus accrued PIK interest of the Term Loans and Promissory Notes of \$55,586 and \$11,425, respectively. Prepayment premiums and unamortized debt costs associated with the Term Loans of \$2,818 and \$3,136, respectively, were capitalized in the balance of the Refinanced Term Loan and are being amortized over the remaining period of the Refinanced Term Loan. In addition, refinancing costs paid to third parties of \$193 were recognized in loss on disposal of discontinued operations. See Note 3, "Discontinued operations," for details.

The Credit Agreement, as amended, requires the Company to maintain and comply with certain financial and other covenants, commencing with the fiscal quarter ended June 30, 2018. In addition, the Credit Agreement, as amended, includes certain prepayment provisions, including mandatory quarterly principal prepayments of the Refinanced Term Loan with a portion of the Company's excess cash flow, as defined in the Credit Agreement. For the three months ended September 30, 2018, the quarterly prepayment resulting from excess cash flow was \$3,727. As of September 30, 2018, this amount was reclassified to the current portion of long-term debt and will be paid during the fourth quarter. As long as the Refinanced Term Loan remains outstanding, the restrictive covenants, including prepayment penalties, and mandatory quarterly prepayment provisions could impair the Company's ability to expand or pursue its business strategies or obtain additional funding. As of September 30, 2018, the Company was in compliance with all of the financial and other covenants under the Credit Agreement.

*Maturities*

Including the required principal prepayment on the Refinanced Term Loan based on a portion of the Company's quarterly excess cash flow of \$3,727 for the third quarter of 2018 and excluding potential future additional principal prepayments, scheduled future maturities of total debt as of September 30, 2018 were as follows:

<b>(In thousands)</b>	
<b>Year</b>	
Remainder of 2018	\$ 4,602
2019	3,500
2020	3,500
2021	3,500
2022	3,500
2023 and thereafter	46,319
<b>Total maturities</b>	<b>\$ 64,921</b>

**FLUENT, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**(Amounts in thousands, except share data)**  
**(unaudited)**

*Fair value*

The Refinanced Term Loan accrues interest at the rate of either, at Fluent's option, (a) LIBOR (subject to a floor of 0.50%) plus 7.00% per annum, or (b) base rate (generally equivalent to the U.S. prime rate) plus 6.0% per annum, payable in cash. As the Refinanced Term Loan was effective on March 26, 2018 and has a variable interest rate, the fair value of long-term debt is considered to approximate its carrying amount as of September 30, 2018. This fair value assessment represents Level 2 measurements.

**7. Income taxes**

The Company is subject to federal and state income taxes in the United States. The tax provision for interim periods is determined using an estimate of the Company's annual effective tax rate. The Company updates its estimated annual effective tax rate on a quarterly basis and, if the estimate changes, makes a cumulative adjustment.

The Company recorded a full valuation allowance against net deferred tax assets as of September 30, 2018 and December 31, 2017 and intends to continue maintaining a full valuation allowance on these net deferred tax assets until there is sufficient evidence to support the release of all or some portion of these allowances. Based on current income (loss) from continuing operations and anticipated future earnings, the Company believes there is a reasonable possibility that within the next 12 months sufficient positive evidence may become available to allow a conclusion to be reached that a significant portion, if not all, of the valuation allowance will be released. Release of some or all of the valuation allowance would result in the recognition of certain deferred tax assets and an increase in deferred tax benefit for any period in which such a release may be recorded, however, the exact timing and amount of any valuation allowance release are subject to change, depending upon the level of profitability that the Company is able to achieve and the net deferred tax assets available.

The Company's effective income tax rate differed from the statutory federal income tax rate of 21% for the three and nine months ended September 30, 2018 and 34% for the three and nine months ended September 30, 2017. For the three and nine months ended September 30, 2018 and 2017, the Company's effective income tax rate was 0%, with such differences resulting from the application of the full valuation allowance against the Company's deferred tax assets.

On December 22, 2017, the United States enacted tax reform legislation through the Tax Act, which significantly changed the pre-existing U.S. tax laws. The Tax Act includes a reduction in the U.S. corporate tax rate from 34% to 21%, among other changes. In response to the Tax Act, the SEC staff issued Staff Accounting Bulletin No. 118, which allows registrants to record provisional amounts during a measurement period, not to extend beyond one year. Pursuant to SAB 118, the Company will complete the accounting for the tax effects of all of the provisions of the Tax Act within the required measurement period. As a result of the full valuation allowance at September 30, 2018 and December 31, 2017, the Tax Act did not have any material impact on the Company's condensed consolidated financial statements. There have been no changes in estimates or additional guidance issued during the nine months ended September 30, 2018 which would change the Company's assessment of the tax impacts recorded as of the year ended December 31, 2017. The Company is continuing to analyze both the federal and state impacts of the Tax Act, as additional future guidance is issued and information becomes available. Any revisions to the initial estimates will be applied in accordance with the measurement period guidance as outlined in SAB 118.

The Company assesses its income tax positions and records tax benefits for all years subject to examination based upon its evaluation of the facts, circumstances and information available at the reporting dates. For those tax positions where it is more-likely-than-not that a tax benefit will be sustained, the Company has recorded the largest amount of tax benefit with a greater than 50% likelihood of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where it is not more-likely-than-not that a tax benefit will be sustained, no tax benefit has been recognized in the Company's financial statements.

The balance of unrecognized tax benefits as of September 30, 2018 and December 31, 2017 was \$1,079 and \$1,134, respectively. The decrease in the balance during this period is due to a decrease in the Company's effective state tax rate for the year, as a result of the Spin-off of red violet, which reduced the Company's state tax footprint. In the Company's tax return filed for the year ended December 31, 2015, a loss of \$4,375 resulting from the disposal of all assets and liabilities related to the Company's former Chinese and British Virgin Islands based subsidiaries was included for that fiscal year. This uncertain tax position is reflected as a reduction in deferred tax assets. Based on management's assessment, no tax benefit has been recognized for this loss. This unrecognized tax benefit, if recognized, would favorably affect the Company's annual effective tax rate before application of any valuation allowance. The Company has not accrued any interest or penalties as of September 30, 2018 with respect to its uncertain tax positions.

The Company does not anticipate a significant increase or reduction in unrecognized tax benefits within the next twelve months.

## 8. Common stock, treasury stock and warrants

### *Common stock*

As of September 30, 2018 and December 31, 2017, the number of issued shares of common stock was 76,516,415 and 61,631,573, respectively, which included shares of treasury stock of 1,225,085 and 352,523, respectively.

The change in the number of issued shares of common stock during the nine months ended September 30, 2018 was a result of the following issuances:

- An aggregate of 12,184,842 shares of common stock were issued as a result of the vesting of RSUs, including 872,562 shares of common stock withheld to cover withholding taxes upon such vesting, which are reflected in treasury stock.
- An aggregate of 2,700,000 shares of common stock were issued in a registered direct offering ("Registered Direct Offering") to certain investors with a purchase price of \$5.00 per share, pursuant to a definitive securities purchase agreement entered into on January 10, 2018, for net proceeds of \$13,392, net of issuance costs of \$108.

Concurrent with the Registered Direct Offering, the Company issued such institutional buyers, for no additional consideration, warrants to purchase an aggregate of 1,350,000 shares of common stock. The warrants have an exercise price of \$6.00 per share and are exercisable for two years from the date of issuance.

### *Treasury stock*

As of September 30, 2018 and December 31, 2017, the Company held shares of treasury stock of 1,225,085 and 352,523, with a cost of \$3,253 and \$1,274, respectively.

This increase in treasury stock during the nine months ended September 30, 2018 was due to shares withheld to cover withholding taxes upon the vesting of RSUs, including a purchase on April 9, 2018 by the Company of 729,167 shares of treasury stock for \$1,581, representing the aggregate shares red violet employees had elected to sell to cover the withholding of taxes on the accelerated vesting of RSUs related to the Spin-off.

### *Warrants*

As of September 30, 2018 and December 31, 2017, warrants to purchase an aggregate of 2,623,776 and 1,273,776 shares of common stock were outstanding, respectively, with exercise prices ranging from \$3.75 to \$8.00 per share.

The increase in warrants was a result of the issuance of warrants to purchase an aggregate of 1,350,000 shares of common stock, with an exercise price of \$6.00 per share, concurrent with the Registered Direct Offering, as discussed above.

On July 9, 2018 the Company entered into First Amendments (the "First Amendments") to the Amendments to Warrants and Agreements to Exercise ("Amended Whitehorse Warrants") with (i) H.I.G. Whitehorse SMA ABF, L.P. regarding 46,667 warrants to purchase common stock of the Company, par value \$0.0005 per share, at an exercise price of \$3.00 per share; (ii) H.I.G. Whitehorse SMA Holdings I, LLC regarding 66,666 warrants to purchase common stock of the Company at an exercise price of \$3.00 per share; and (iii) Whitehorse Finance, Inc. regarding 186,667 warrants to purchase common stock of the Company at an exercise price of \$3.00 per share. In November 2017, the Amended Whitehorse Warrants were exercised and the Company issued an aggregate of 300,000 shares of common stock of the Company (the "Warrant Shares") to the warrant holders. Pursuant to the First Amendments, the parties agreed to reduce the price per share at which the warrant holders have the right, but not the obligation, to require the Company to purchase from the warrant holders the Warrant Shares (the "Put Right") to \$3.8334 per share, to modify the period during which the Put Right can be exercised to the period commencing January 1, 2019 and ending December 15, 2019, and to modify the minimum price that the warrant holders can transfer any of the Warrant Shares to no less than \$3.8334 per share. The reduction in the Put Right price from \$4.50 per share to \$3.8334 per share was a result of the receipt by the warrant holders of 40,000 shares of red violet common stock in the Spin-off and the warrant holders' subsequent sale of those shares for \$200 in a private transaction. During the third quarter of 2018, the change in the value of the Put Right price resulted in a reduction to the puttable option classified within accrued expenses and other current liabilities and a corresponding increase to additional paid-in-capital of \$200.

## 9. Share-based compensation

As of September 30, 2018, the Company maintains three share-based incentive plans: the 2008 Share Incentive Plan (the "2008 Plan"), the Cogint, Inc. 2015 Stock Incentive Plan (the "2015 Plan") which, combined, authorized the issuance of 13,500,000 shares of common stock, and the Fluent, Inc. 2018 Stock Incentive Plan (the "2018 Plan"), which authorizes the issuance of ten percent of the Company's issued and outstanding shares of common stock, as may be adjusted from time to time.

The 2018 Plan was approved by the board of directors in April 2018 and subsequently approved by stockholders at the Annual Meeting of Stockholders held on June 6, 2018. The primary purpose of the 2018 Plan is to attract, retain, reward, and motivate certain individuals by providing them with an opportunity to acquire or increase an ownership interest in the Company.

As of September 30, 2018, there were 310,568, 303,074 and 7,529,133 shares of common stock reserved for issuance under the 2008 Plan, the 2015 Plan and the 2018 Plan, respectively.

### *Shares issued outside of the equity plans*

The following RSUs were issued outside of the aforementioned equity plans:

Pursuant to a business consulting agreement effective October 14, 2014 (the "Business Consulting Agreement"), Marlin Capital Investments, LLC ("Marlin Capital"), a company of which Michael Brauser, the Company's Executive Chairman prior to the Spin-off, owned 50% and was one of two managers, held RSUs representing the right to receive 2,000,000 shares of the Company's common stock, for consulting services provided by Marlin Capital. These RSUs were to vest annually beginning from October 13, 2015 only if certain performance goals of the Company were met. The shares underlying such RSUs would not have been delivered until October 13, 2018, unless there was a change of control of the Company, termination of the agreement by the Company without cause, or termination of the agreement by Marlin Capital for good reason. The Company determined the performance goals were met as of December 31, 2015. On March 12, 2018, the Company terminated the Business Consulting Agreement. The unvested 500,000 shares were accelerated and related share-based compensation expense of \$906 was recognized fully in loss on disposal of discontinued operations during the first quarter of 2018.

Effective November 16, 2015, the Company entered into an employment agreement with Michael Brauser (the "Brauser Employment Agreement") relating to his service as Executive Chairman of the Board of Directors, pursuant to which Mr. Brauser would receive an annual base salary of \$25 payable in accordance with the Company's general payroll practices and RSUs outside of the 2008 Plan and 2015 Plan representing the right to receive 5,000,000 shares of common stock. These RSUs were to vest ratably over a four-year period; provided, however, that no portion of the RSUs were to vest unless and until the Company had met certain vesting conditions during the vesting period. In addition, such RSUs were to vest in full upon a Company change in control, termination of Mr. Brauser without cause, termination by Mr. Brauser for good reason, or Mr. Brauser's death or disability. Effective March 14, 2017, the Company determined that the performance vesting conditions were met. Effective June 23, 2017, the Brauser Employment Agreement was terminated. Mr. Brauser continued to serve as Chairman of the Board of Directors prior to the Spin-off. On September 6, 2017, the Company entered into a consulting services agreement with Mr. Brauser, effective June 23, 2017, for a term of four years (the "Consulting Agreement"). In consideration for Mr. Brauser's services, the Consulting Agreement provided for continued vesting of all outstanding RSUs previously granted to Mr. Brauser. Among the total 5,000,000 shares granted pursuant to the RSUs, 1,250,000 shares were delivered in December 2017 and 1,250,000 shares were delivered in January 2018, and on March 12, 2018, the unvested 2,500,000 shares were accelerated and related share-based compensation expense of \$6,468 was recognized in loss on disposal of discontinued operations during the first quarter of 2018.

On December 8, 2015, when Phillip Frost, M.D. joined the Board of Directors of the Company as Vice Chairman, Frost Gamma was granted 3,000,000 RSUs, outside of the 2008 Plan and 2015 Plan. This grant was fully vested and related share-based compensation expense was recognized on December 8, 2015, but Frost Gamma elected to defer delivery of any vested RSUs until Dr. Frost's separation from service from the Company or death or disability. Dr. Frost resigned as Vice Chairman effective on March 8, 2018 and the 3,000,000 shares were delivered during the first quarter of 2018.

### *Spin-off of red violet*

On March 8, 2018, the Company's Compensation Committee approved the acceleration (the "Acceleration") of stock options, RSUs and restricted stock held by certain employees, consultants, and directors, including only those employees who were to continue with red violet upon completion of the Spin-off, subject to such employees still being employed or providing services on March 12, 2018 (the "Acceleration Date"). An aggregate of 5,157,998 shares were accelerated, including 47,500 stock options, 4,960,498 RSUs (inclusive of 500,000 shares to Marlin Capital and 2,500,000 to Michael Brauser, as discussed above), and

(unaudited)

150,000 shares of restricted stock. Share-based compensation expense of \$14,667 resulting from the Acceleration was recognized in loss on disposal of discontinued operations during the first quarter of 2018.

In connection with the Spin-off of red violet, common stock awards comprised of an aggregate of 304,000 shares were granted to certain employees of red violet ("Spin-off Grants") during the first quarter of 2018, and related share-based compensation expense of \$881 was recognized in loss on disposal of discontinued operations. In addition, an aggregate of 2,041,000 shares of common stock, subject to deferred delivery over a three-year period, were granted to certain Fluent employees as a result of the Spin-off ("Transaction Grants"), and related share-based compensation expense of \$5,409 was recognized in costs and expenses as part of spin-off transaction costs during the first quarter of 2018.

In total, share-based compensation expense of \$15,548 resulting from the Acceleration and Spin-off Grants in connection with the Spin-off was recognized in loss on disposal of discontinued operations during the first quarter of 2018. See Note 3, "Discontinued operations," for details.

**Stock options**

Details of stock option activity during the nine months ended September 30, 2018 were as follows:

	Number of options	Weighted average exercise price per share	Weighted average remaining contractual term	Aggregate intrinsic value
Outstanding as of December 31, 2017	222,000	\$ 12.59	5.4 years	\$ —
Expired	(110,000)	\$ 11.17		
Outstanding as of September 30, 2018	<u>112,000</u>	<u>\$ 13.98</u>	<u>3.1 years</u>	<u>\$ —</u>
Options vested and expected to vest as of September 30, 2018	<u>112,000</u>	<u>\$ 13.98</u>	<u>3.1 years</u>	<u>\$ —</u>
Options exercisable as of September 30, 2018	<u>112,000</u>	<u>\$ 13.98</u>	<u>3.1 years</u>	<u>\$ —</u>

The aggregate intrinsic value amounts in the table above represent the difference between the closing price of the Company's common stock on September 28, 2018 of \$2.15 and the corresponding exercise prices, multiplied by the number of in-the-money stock options as of the same date.

The unvested balance of options is shown below for the nine months ended September 30, 2018:

	Number of options	Weighted average exercise price per share	Weighted average remaining contractual term
Unvested as of December 31, 2017	47,500	\$ 8.96	7.9 years
Vested (1)	(47,500)	\$ 8.96	
Unvested as of September 30, 2018	<u>—</u>	<u>\$ —</u>	<u>—</u>

(1) As discussed in "Spin-off of red violet" above, the vesting of 47,500 shares of stock options was accelerated as a result of the Spin-off of red violet.

Compensation expense for these stock options of \$0 and \$31 during the three months and \$243 and \$91 during the nine months ended September 30, 2018 and 2017, respectively, was recognized and recorded in discontinued operations in the condensed consolidated statements of operations. As of September 30, 2018, there was no unrecognized share-based compensation with respect to outstanding stock options.

***Restricted stock units, common stock grants and restricted stock***

Details of unvested RSUs, common stock grants and restricted stock activity during the nine months ended September 30, 2018 were as follows:

	Number of units	Weighted average grant-date fair value
Unvested as of December 31, 2017	8,150,905	\$ 9.27
Granted (1)	4,565,125	\$ 2.63
Vested and delivered (2)	(11,462,280)	\$ 7.63
Withheld as treasury stock (3)	(872,562)	\$ 6.05
Vested not delivered (4)	3,766,068	\$ 9.85
Forfeited	(304,625)	\$ 4.82
Unvested as of September 30, 2018	<u>3,842,631</u>	<u>\$ 7.95</u>

(1) As discussed in "Spin-off of red violet" above, among the RSUs granted during the nine months ended September 30, 2018, there were an aggregate of 304,000 shares of Spin-off Grants that vested and were delivered in the first quarter of 2018, and an aggregate of 2,041,000 shares of Transaction Grants that vested but were subject to deferred delivery over a three-year period.

(2) Among the shares vested and delivered during the nine months ended September 30, 2018, there were 6,278,318 shares that were vested but deferred from prior periods. See (4) below.

(3) As discussed in Note 8, the increase in treasury stock was due to shares withheld to cover statutory withholding taxes upon the vesting of RSUs during the first quarter of 2018. As of September 30, 2018, there were 1,225,085 outstanding shares of treasury stock.

(4) Vested not delivered represent vested RSUs or common stock grants with delivery deferred to a future time. During the nine months ended September 30, 2018, there was a net decrease of 3,766,068 shares included in vested not delivered, as a result of the delivery of common stock underlying RSUs included in "vested not delivered" in prior periods. As of September 30, 2018, there were 2,909,917 outstanding RSUs or shares of common stock grants included in vested not delivered.

The Company recognized compensation (included in sales and marketing expenses, general and administrative expenses, and discontinued operations in the condensed consolidated statements of operations, and intangible assets in the condensed consolidated balance sheets) for RSUs, common stock grants and restricted stock of \$2,674 and \$11,492 for the three months and \$28,113 and \$28,704 for the nine months ended September 30, 2018 and 2017, respectively. The fair value of the RSUs and restricted stock was estimated using the closing prices of the Company's common stock on the dates of grant.

As of September 30, 2018, unrecognized share-based compensation expense associated with the granted RSUs amounted to \$10,299, which is expected to be recognized over a weighted average period of 1.8 years.

The share-based compensation for the Company's stock options, RSUs, common stock grants and restricted stock were allocated to the following accounts in the condensed consolidated financial statements for the three and nine months ended September 30, 2018 and 2017:

**10. Segment information**

The Company previously had two reportable segments corresponding with two operating segments, Information Services and Performance Marketing. As a result of the Spin-off of red violet and the resulting change in the Company's management team, the composition of the Company's reportable segments changed. As a result, the Company determined that it had one reportable segment corresponding with one operating segment, Performance Marketing, as of March 31, 2018. This reflects the way the Company evaluates its business performance and manages its operations. The Company revised the segment information disclosures for the three and nine months ended September 30, 2017 to reflect this change.

Revenue by geography is based on the location of the Company's customers. A majority of revenue is generated from the United States, and the total revenue generated from outside of the United States was less than 10% for the three and nine months ended September 30, 2018 and 2017.

**11. Related party transactions**

For the three and nine months ended September 30, 2018 and 2017, material related party transactions were as follows:

***Business Consulting Agreement***

Pursuant to the Business Consulting Agreement, Marlin Capital held RSUs representing the right to receive 2,000,000 shares of the Company's common stock, for consulting services provided by Marlin Capital. These RSUs were to vest annually beginning from October 13, 2015 only if certain performance goals of the Company were met. The shares underlying such RSUs would not have been delivered until October 13, 2018, unless there was a change of control of the Company, termination of the agreement by the Company without cause, or termination of the agreement by Marlin Capital for good reason. The Company determined the performance goals were met as of December 31, 2015. Share-based compensation expense of negative \$1,792, as a result of the revaluation of the fair value of RSUs granted, and \$315 for the three months and negative \$1,792 and \$934 for the nine months ended September 30, 2018 and 2017, respectively, associated with shares under the Marlin Capital agreement, was recognized in general and administrative expenses. On March 12, 2018, the Company terminated the Business Consulting Agreement. The unvested 500,000 shares were accelerated and related share-based compensation expense of \$906,000 was recognized fully in loss on disposal of discontinued operations during the first quarter of 2018. See Note 9, "Share-based compensation," for details.

***Promissory Notes***

On December 8, 2015, the Company entered into the Promissory Notes, with an interest rate of 10% per annum, with certain investors, for aggregate financing of \$10.0 million, consisting of \$5.0 million from Frost Gamma, \$4.0 million from Michael Brauser, and \$1.0 million from another investor.

As of December 31, 2017, the principal amounts plus accrued PIK interest of the Promissory Notes owing to Frost Gamma, Michael Brauser and such other investor were \$5,574, \$4,460 and \$1,115, respectively. During the nine months ended September 30, 2017, the Company repaid \$533, \$426, and \$107 to Frost Gamma, Michael Brauser and another investor, respectively. On March 26, 2018, as part of the Refinancing associated with the Spin-off of red violet, the principal amount plus accrued PIK interest of the Promissory Notes owing to Frost Gamma, Michael Brauser and such other investor, of \$5,713, \$4,570 and \$1,143, respectively, was fully repaid. See Note 6, "Long-term debt, net," for details.

***Consulting Agreement***

On September 6, 2017, the Company entered into the Consulting Agreement with Michael Brauser, effective as of June 23, 2017, for a term of four years, under which Mr. Brauser served as a strategic advisor to the Company but received no salary for such services. In consideration for Mr. Brauser's services, the Consulting Agreement provided for continued vesting of all outstanding RSUs granted to Mr. Brauser under the Brauser Employment Agreement.

Share-based compensation expense of \$302, associated with the Consulting Agreement, was recognized in general and administrative expenses for the nine months ended September 30, 2018. In addition, upon the Acceleration, the remaining unvested 2,500,000 shares were accelerated, and related share-based compensation expense of \$6,468 was recognized in loss on disposal of discontinued operations during the first quarter of 2018. The Consulting Agreement was terminated upon the Spin-off of red violet. See Note 9, "Share-based compensation," for details.

***Others***

Effective on August 1, 2015, the Company entered into a consulting agreement with DAB Management Group Inc. ("DAB") for DAB to provide consulting services (the "DAB Agreement"). DAB is owned by Daniel Brauser, a director of the Company at the time the DAB Agreement was entered into and the son of Michael Brauser. Under the DAB Agreement, the consulting service fee was \$20 per month. The Company recognized consulting service fees of \$0 and \$60 for the three months and \$60 and \$180 for the nine months ended September 30, 2018 and 2017, respectively. The DAB Agreement was terminated upon the Spin-off of red violet.

**12. Subsequent Events**

On October 10, 2018, the Company entered into a seven-year operating lease agreement for approximately 43,000 square feet of office space in New York. In connection with the lease agreement, the Company is required to establish a \$1,480 collateral account. Rent expense related to the new lease agreement will be recorded on a straight-line basis beginning on an agreed-upon lease commencement date, which is expected to be during the fourth quarter of 2018.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

### Executive Overview

*You should read the following discussion in conjunction with our condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. This Quarterly Report on Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"), Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"), about our expectations, beliefs, or intentions regarding our business, financial condition, results of operations, strategies, the outcome of litigation, or prospects. You can identify forward-looking statements by the fact that these statements do not relate strictly to historical or current matters. Rather, forward-looking statements relate to anticipated or expected events, activities, trends, or results as of the date they are made. Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties that could cause our actual results to differ materially from any future results expressed or implied by the forward-looking statements. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those contained in this Quarterly Report on Form 10-Q, as well as the disclosures made in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 filed on March 14, 2018 ("2017 Form 10-K"), and other filings we make with the Securities and Exchange Commission (the "SEC"). We do not undertake any obligation to update forward-looking statements, except as required by law. We intend that all forward-looking statements be subject to the safe harbor provisions of PSLRA. ### Overview

Fluent, Inc. ("we," "us," "our," "Fluent," or the "Company"), formerly known as Cogint, Inc., a Delaware corporation, is an industry leader in data-driven digital marketing services. We perform customer acquisition services for our clients, which include over 500 leading consumer brands, direct marketers and agencies across a wide range of industries. Through our highly-scalable digital marketing campaigns, we have amassed a large, proprietary database of first-hand, self-declared consumer information and preferences. We develop custom segments of consumers, or audiences, that our clients are seeking to connect with, and deliver data and performance-based marketing executions that enable them to do so.

Our database currently contains over 200 million unique email addresses that we believe represent over 168 million unique individuals in the U.S. We have permission to contact the majority of them through multiple channels, such as email, home address, telephone, push notifications and SMS text messaging.

We leverage a suite of owned media properties and custom, interactive content to attract mass audiences and engage them with surveys, polls and chat tools to learn about their lifestyles and preferences. On average, our websites receive over 800,000 first-party consumer registrations daily, which include consumers' names, contact information and permission to provide them with promotional offers. According to comScore, we reach 13% of the U.S. digital population on a monthly basis through our owned media properties. Over 80% of these consumers engage with Fluent's properties on their mobile devices or tablets.

Our always-on, real-time capabilities enable us to continue compiling new insights on individuals for whom we have gained opt-in consent to market to, further enhancing our ability to operate effective performance marketing programs across a wide range of industries. As our database becomes more robust through further growth and additional insights, we believe our opportunity to expand our addressable client base and the efficiency of our performance-based campaigns improves. Industries we serve include financial and professional services, consumer goods, media and entertainment, health, and political, among others.

We previously had two reportable segments, Information Services and Performance Marketing. As a result of the Spin-off of red violet on March 26, 2018, as discussed below, and the resulting change in our management team, the composition of our reportable segments changed. As a result, we determined that we had only one reportable segment, Performance Marketing, as of March 31, 2018. This reflects the way our management team evaluates our business performance and manages our operations. We restated the segment information disclosures and related analysis in this section for the three and nine months ended September 30, 2017 to reflect this change.

### **Spin-off of red violet**

On March 26, 2018, we completed the previously announced spin-off (the "Spin-off") of our risk management business from our digital marketing business by way of a distribution of all the shares of common stock of our wholly-owned subsidiary, Red Violet, Inc. ("red violet"), to our stockholders of record as of March 19, 2018 (the "Record Date") and certain warrant holders. The distribution occurred by way of a pro rata stock distribution to such common stock and warrant holders, each of whom received one share of red violet's common stock for every 7.5 shares of our common stock held on the Record Date, or to which they were entitled to under their warrant.

Following the Spin-off, our common stock continues trading on The NASDAQ Stock Market ("NASDAQ"), and red violet became an independent public company, whose shares are also traded on NASDAQ. Upon the Spin-off, red violet owns all of the subsidiaries which previously operated our risk management business.

In accordance with Accounting Standards Codification ("ASC") 205-20, "*Discontinued Operations*," the results of red violet are reflected in our condensed consolidated financial statements as discontinued operations and, therefore, are presented as assets and liabilities of discontinued operations on the condensed consolidated balance sheet, loss from discontinued operations on the condensed consolidated statements of operations and cash activity from discontinued operations on the condensed consolidated statements of cash flows.

Certain amounts in the prior year's condensed consolidated financial statements and related footnotes thereto have been reclassified to conform with the current year presentation as a result of the Spin-off of red violet.

### **Third Quarter and Recent Business Highlights**

- Surpassed 200 million unique email addresses in the Fluent Identity Graph.
- Expanded revenue and margins as a result of consumer re-engagement through lifecycle marketing initiatives.
- Successfully deployed machine learning to enhance audience segmentation and drive incremental monetization.
- Increased scale and profitability in our UK beta launch.

### **Third Quarter Financial Results**

Three months ended September 30, 2018 compared to three months ended September 30, 2017:

- Total revenue increased 21% to \$66.5 million, from \$54.9 million.
- Net income from continuing operations was \$4.5 million, compared to net loss from continuing operations of \$10.8 million.
- Results from discontinued operations were \$0, compared to net loss from discontinued operations of \$3.3 million.
- Basic earnings per share from continuing operations was \$0.06, compared to a loss of \$0.19 per share.
- Adjusted EBITDA grew 56% to \$12.4 million, based on net income of \$4.5 million, compared to adjusted EBITDA of \$7.9 million on net loss of \$14.1 million.
- Adjusted gross profit increased 43% to \$27.4 million, from \$19.2 million. Adjusted gross margin increased 600 basis points to 41%, from 35%.

Adjusted EBITDA, adjusted gross profit and adjusted gross margin are non-GAAP financial measures.

Nine months ended September 30, 2018 compared to nine months ended September 30, 2017:

- Total revenue increased 16% to \$179.5 million, from \$155.2 million.
- Net income from continuing operations was \$1.5 million (inclusive of spin-off transaction costs of \$7.7 million), compared to net loss from continuing operations of \$28.9 million.
- Net loss from discontinued operations was \$21.1 million, compared to \$18.4 million.
- Basic earnings per share from continuing operations was \$0.02, compared to a loss of \$0.53 per share.

- Adjusted EBITDA grew 51% to \$33.0 million, based on a net loss of \$19.6 million, from \$21.8 million on \$47.2 million of net loss.
- Adjusted basic earnings per share from continuing operations was \$0.13, compared to a loss of \$0.53 per share.
- Adjusted gross profit increased 39% to \$70.8 million, from \$50.9 million. Adjusted gross margin increased 600 basis points to 39%, from 33%.

Adjusted net income (loss), adjusted earnings (loss) per share, adjusted EBITDA, adjusted gross profit and adjusted gross margin are non-GAAP financial measures.

### Use and Reconciliation of Non-GAAP Financial Measures

Management evaluates the financial performance of our business on a variety of key indicators, including adjusted EBITDA, adjusted net income (loss), adjusted earnings (loss) per share, adjusted gross profit and adjusted gross margin. Adjusted EBITDA is a non-GAAP financial measure equal to net income (loss), the most directly comparable financial measure based on US GAAP, adding back net loss from discontinued operations, interest expense, depreciation and amortization, share-based compensation expense, acquisition and restructuring costs, write-off of long-lived assets, and litigation and other costs, as noted in the tables below. Adjusted net income (loss) and the related basic and diluted per share amounts are non-GAAP measures equal to net income (loss) from continuing operations, the most directly comparable financial measure based on US GAAP, adding back the effect of spin-off transaction costs. We define adjusted gross profit as revenue less cost of revenue (exclusive of depreciation and amortization) and adjusted gross margin as adjusted gross profit as a percentage of revenue.

We present adjusted EBITDA, adjusted net income (loss), adjusted earnings (loss) per share, adjusted gross profit and adjusted gross margin as supplemental measures of our financial and operating performance because we believe they provide useful information to our investors as they eliminate the impact of certain items that we do not consider indicative of our cash operations and ongoing operating performance. In addition, we use them as an integral part of our internal reporting to measure our performance, evaluate the performance of our senior management and measure the operating strength of our business.

Adjusted EBITDA, adjusted net income (loss), adjusted earnings (loss) per share, adjusted gross profit and adjusted gross margin are measures frequently used by securities analysts, investors and other interested parties in their evaluation of the operating performance of companies similar to ours and are indicators of the operational strength of our business. Adjusted EBITDA eliminates the uneven effects of discontinued operations, interest expense, non-cash depreciation and amortization, share-based compensation expense, acquisition and restructuring costs, write-off of long-lived assets and certain litigation and other costs. Adjusted net income (loss) and adjusted earnings (loss) per share eliminate the effect of the spin-off transaction costs. Adjusted gross profit and adjusted gross margin are calculated by using cost of revenue (exclusive of depreciation and amortization).

Adjusted EBITDA, adjusted net income (loss), adjusted earnings (loss) per share, adjusted gross profit and adjusted gross margin are not intended to be performance measures that should be regarded as an alternative to, or more meaningful than, either operating income (loss) or net income (loss) as indicators of operating performance or to cash flows from operating activities as a measure of liquidity. The way we measure adjusted EBITDA, adjusted net income (loss), adjusted earnings (loss) per share, adjusted gross profit and adjusted gross margin may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.

## Results of Operations

*Three months ended September 30, 2018 compared to three months ended September 30, 2017*

**Revenue.** Total revenue increased \$11.6 million, or 21%, to \$66.5 million for the three months ended September 30, 2018, from \$54.9 million for the three months ended September 30, 2017. This increase was driven by increased adoption of our core performance-based marketing services across multiple advertiser verticals and media channels.

**Cost of revenue (exclusive of depreciation and amortization).** Cost of revenue increased \$3.4 million, or 9%, to \$39.1 million for the three months ended September 30, 2018, from \$35.7 million for the three months ended September 30, 2017. Our cost of revenue primarily consists of media costs associated with acquiring traffic from publishers or third-party intermediaries, such as advertising exchanges. We purchase media to acquire traffic for both our owned and operated websites and on behalf of third-party advertisers.

The total cost of revenue as a percentage of revenue declined to 59% for the three months ended September 30, 2018, compared to 65% in the corresponding period in 2017. This margin improvement was largely a result of our lifecycle marketing initiative, which re-engages consumers to extend lifetime value. The initiative allows for increased advertising distribution with limited increases in corresponding costs. Additionally, enhanced audience segmentation through the employment of machine learning enabled increased monetization and supported the margin expansion.

**Sales and marketing expenses.** Sales and marketing expenses decreased \$0.9 million, or 18%, to \$4.2 million for the three months ended September 30, 2018, from \$5.1 million for the three months ended September 30, 2017. Sales and marketing expenses consist of salaries and benefits of 2.2 million and 2.3 million, advertising and marketing and fulfillment costs associated with our promotional websites of 0.9 million and 0.5 million, non-cash share-based compensation expense of 0.7 million and 0.8 million, and provision for bad debt of 0.2 million and 1.3 million, respectively. The decrease in sales and marketing expenses was mainly due to the decrease in the provision for bad debt of \$1.1 million.

**General and administrative expenses.** General and administrative expenses decreased \$5.6 million, or 29%, to \$13.6 million for the three months ended September 30, 2018, from \$19.1 million for the three months ended September 30, 2017. For the three months ended September 30, 2018 and 2017, the amounts consisted mainly of employee salaries and benefits of \$6.1 million and \$3.4 million, non-cash share-based compensation expense of \$1.9 million and \$9.7 million, hosting and IT expenses of \$2.3 million and \$1.7 million, professional fees of \$1.4 million and \$0.6 million and acquisition and restructuring costs of \$0.1 million and \$2.4 million, respectively. The decrease was mainly the result of decreased share-based compensation expense and acquisition and restructuring costs, partially offset by an increase in employee salaries and benefits, resulting from the expansion of our workforce to support growth.

**Depreciation and amortization.** Depreciation and amortization expenses remained relatively flat, increasing \$0.1 million, or 2%, to \$3.4 million for the three months ended September 30, 2018, from \$3.3 million for the three months ended September 30, 2017.

**Interest expense, net.** Interest expense, net, decreased \$0.5 million, or 22%, to \$1.9 million for the three months ended September 30, 2018, from \$2.4 million for the three months ended September 30, 2017. The decrease was mainly attributable to the lower interest rate related to the Refinanced Term Loan described in Note 6, "Long-term debt, net," included in "Notes to Condensed Consolidated Financial Statements."

**Income (loss) before income taxes from continuing operations.** For the three months ended September 30, 2018, income before income taxes from continuing operations was \$4.5 million, as compared to a loss before income taxes of \$10.8 million for the three months ended September 30, 2017, which includes non-cash share-based compensation expense of \$2.6 million and \$10.5 million and depreciation and amortization of \$3.4 million and \$3.3 million, respectively. The change from loss before income taxes from continuing operations to income for the three months ended September 30, 2018 as compared to the corresponding period in 2017 was primarily due to the increase in revenue, decreased cost of revenue as a percentage of revenue and a decrease in share-based compensation expense.

**Income taxes.** Provision for income taxes was \$0.0 million for the three months ended September 30, 2018 and 2017. Our effective tax rate was 0% for the three months ended September 30, 2018 and 2017. We recorded a full valuation allowance against our net deferred tax assets as of September 30, 2018 and 2017. We intend to continue maintaining a full valuation allowance on our deferred tax assets until there is sufficient evidence to support the release of all or some portion of these allowances. Based on current earnings from continuing operations and anticipated future earnings, we believe there is a reasonable possibility that within the next 12 months, sufficient positive evidence may become available to allow us to reach a conclusion that a significant portion, if not all, of the valuation allowance will be released. Release of some or all of the valuation allowance would result in the recognition of certain deferred tax assets and an increase in deferred tax benefit for any period in which such a release may be recorded, however, the exact timing and amount of any valuation allowance release are subject to change, depending on the level of profitability that we are able to achieve and the net deferred tax assets available.

On December 22, 2017, the tax reform legislation commonly known as the Tax Cuts and Jobs Act of 2017 (the "Tax Act") was enacted, with the statutory federal income tax rate lowered to 21% from 34%, among other changes, effective on January 1, 2018. As a result of our full valuation allowance at September 30, 2018 and December 31, 2017, the Tax Act did not have any material impact on the condensed consolidated financial statements. There have been no changes in estimates or additional guidance issued during the three months ended September 30, 2018 that would change our assessment of the tax impacts recorded through December 31, 2017. We continue to analyze both the federal and state impacts of various provisions of the Tax Act as additional future guidance is issued and information becomes available. See Note 7, "Income Taxes", included in "Notes to Condensed Consolidated Financial Statements," for details.

**Net loss from discontinued operations.** On March 26, 2018, we completed the Spin-off of red violet and the results of red violet through such date are reflected as discontinued operations. For the three months ended September 30, 2017, we had a net loss from discontinued operations of \$3.3 million compared with no discontinued operations activity for the same period in 2018. See Note 3, "Discontinued operations," included in "Notes to Condensed Consolidated Financial Statements," for details.

**Net income (loss).** Net income of \$4.5 million and net loss of \$14.1 million was recognized for the three months ended September 30, 2018 and 2017, respectively, as a result of the foregoing.

*Nine months ended September 30, 2018 compared to nine months ended September 30, 2017*

**Revenue.** Total revenue increased \$24.3 million, or 16%, to \$179.5 million for the nine months ended September 30, 2018, from \$155.2 million for the nine months ended September 30, 2017. This increase was driven by increased adoption of our core performance-based marketing services across multiple advertiser verticals and media channels.

**Cost of revenue (exclusive of depreciation and amortization).** Cost of revenue increased \$4.3 million, or 4%, to \$108.6 million for the nine months ended September 30, 2018, from \$104.3 million for the nine months ended September 30, 2017. Our cost of revenue primarily consists of media costs associated with acquiring traffic from publishers and third-party intermediaries, such as advertising exchanges. We purchase media to acquire traffic for both our owned and operated websites and on behalf of third-party advertisers.

The total cost of revenue as a percentage of revenue declined to 61% for the nine months ended September 30, 2018, compared to 67% in the corresponding period in 2017. This margin improvement was largely a result of our lifecycle marketing initiative, which re-engages consumers to extend lifetime value. The initiative allows for increased advertising distribution with limited increases in corresponding costs. Additionally, enhanced audience segmentation through the employment of machine learning enabled increased monetization and supported the margin expansion.

**Sales and marketing expenses.** Sales and marketing expenses decreased \$1.6 million, or 12%, to \$11.9 million for the nine months ended September 30, 2018, from \$13.5 million for the nine months ended September 30, 2017. For the nine months ended September 30, 2018 and 2017, the amounts consisted mainly of employee salaries and benefits of \$6.2 million and \$6.4 million, advertising and marketing and fulfillment costs associated with our promotional websites of \$2.4 million and \$2.1 million, non-cash share-based compensation expense of \$2.2 million and \$2.2 million, and provision for bad debt of \$0.5 million and \$2.3 million, respectively. The decrease in sales and marketing expenses was mainly due to the decrease in the provision for bad debt of \$1.8 million.

**General and administrative expenses.** General and administrative expenses decreased \$12.3 million, or 27%, to \$33.5 million for the nine months ended September 30, 2018, from \$45.8 million for the nine months ended September 30, 2017. For the nine months ended September 30, 2018 and 2017, the amounts consisted mainly of employee salaries and benefits of \$14.8 million and \$9.7 million, hosting and IT expenses of \$5.4 million and \$3.5 million, non-cash share-based compensation expense of \$4.2 million and \$23.3 million, professional fees of \$3.7 million and \$1.5 million and acquisition and restructuring costs of \$0.9 million and \$4.7 million, respectively. The decrease was mainly the result of decreased share-based compensation expense and acquisition and restructuring costs, partially offset by an increase in employee salaries and benefits, resulting from the expansion of our workforce to support growth.

**Depreciation and amortization.** Depreciation and amortization expenses increased \$0.3 million, or 3%, to \$10.0 million for the nine months ended September 30, 2018, from \$9.7 million for the nine months ended September 30, 2017. The increase in depreciation and amortization was mainly due to the amortization of software developed for internal use that became ready for its intended use since the end of the second quarter of 2017.

**Write-off of long-lived assets.** During the first quarter of 2017, the business of Q Interactive, LLC ("Q Interactive"), a subsidiary acquired by the Company in June 2016, was merged and fully integrated into Fluent, LLC ("Fluent LLC"), a subsidiary of the Company ("Q Interactive Integration"). As a result of the Q Interactive Integration, we wrote off \$3.6 million, primarily relating to the remaining balance of the acquired proprietary technology and trade names acquired in the acquisition of Q Interactive. We included this amount in costs and expenses as a write-off of long-lived assets. There was no write-off of long lived assets during the nine months ended September 30, 2018.

**Spin-off transaction costs.** During the first quarter of 2018, in connection with the Spin-off of red violet, an aggregate of \$7.7 million was recognized in costs and expenses as Spin-off transaction costs, including non-cash share-based compensation expense of \$5.4 million as a result of the 2,041,000 shares of Transaction Grants (as defined in Note 9, "Share-based compensation" to "Notes to Condensed Consolidated Financial Statements"), and employee cash compensation of \$2.3 million.

**Interest expense, net.** Interest expense, net, decreased \$0.9 million, or 13%, to \$6.2 million for the nine months ended September 30, 2018, from \$7.1 million for the nine months ended September 30, 2017. The decrease was mainly attributable to the lower interest rate related to the Refinanced Term Loan described in Note 6, "Long-term debt, net," included in "Notes to Condensed Consolidated Financial Statements."

**Income (loss) before income taxes from continuing operations.** For the nine months ended September 30, 2018, income before income taxes from continuing operations was \$1.5 million, compared to a loss before income taxes from continuing operations of \$28.9 million for the nine months ended September 30, 2017. Income (loss) before income taxes from continuing operations includes one-time spin-off transaction costs of \$7.7 million and \$0.0 million (which include of non-cash charges of \$5.4 million and \$0.0 million), other non-cash share-based compensation expense of \$6.4 million and \$25.5 million, depreciation and amortization of \$10.0 million and \$9.7 million, and write-off of long-lived assets of \$0.0 million and \$3.6 million, for the nine months ended September 30, 2018 and 2017, respectively. The change in income (loss) before income taxes from continuing operations for the nine months ended September 30, 2018 as compared to the corresponding period in 2017 was primarily due to an increase in revenue, a decreased cost of revenue as a percentage of revenue, a decrease in share-based compensation expense and the absence of write-off of long-lived assets, which were partially offset by the one-time Spin-off transaction costs of \$7.7 million incurred during the first quarter of 2018.

**Income taxes.** Provision for income taxes was \$0.0 million for the nine months ended September 30, 2018 and 2017. Our effective tax rate was 0% for the nine months ended September 30, 2018 and 2017.

We recorded a full valuation allowance against our net deferred tax assets as of September 30, 2018 and 2017. We intend to continue maintaining a full valuation allowance on our deferred tax assets until there is sufficient evidence to support the release of all or some portion of these allowances. Based on our current earnings from continuing operations and anticipated future earnings, we believe that there is a reasonable possibility that within the next 12 months, sufficient positive evidence may become available to allow us to reach a conclusion that a significant portion of the valuation allowance will be released. Release of some or all of the valuation allowance would result in the recognition of certain deferred tax assets and an increase in deferred tax benefit for any period in which such a

release may be recorded, however, the exact timing and amount of any valuation allowance release are subject to change, depending on the profitability that we are able to achieve and the net deferred tax assets available.

On December 22, 2017, the Tax Act was enacted, with the statutory federal income tax rate lowered to 21% from 34%, among other changes, effective on January 1, 2018. As a result of our full valuation allowance at September 30, 2018 and December 31, 2017, the Tax Act did not have any material impact on the condensed financial statements. There have been no changes in estimates or additional guidance issued during the nine months ended September 30, 2018 that would change our assessment of the tax impacts recorded through December 31, 2017. We continue to analyze both the federal and state impacts of various provisions of the Tax Act as additional future guidance is issued and information becomes available. See Note 7, "Income Taxes", included in "Notes to Condensed Consolidated Financial Statements," for details.

**Net loss from discontinued operations.** On March 26, 2018, we completed the Spin-off of red violet and the results of red violet through this date are reflected as discontinued operations. For the nine months ended September 30, 2018 and 2017, we had net losses from discontinued operations of \$21.1 million and \$18.4 million, respectively. The increase in net loss from discontinued operations was primarily attributable to the one-time loss on disposal of discontinued operations of \$19.0 million, which was primarily comprised of non-cash items of \$16.0 million, such as share-based compensation expense and write-off of unamortized debt costs in connection with the Spin-off, and cash items of \$3.0 million, including spin-off related professional fees and employee compensation. See Note 3, "Discontinued operations," included in "Notes to Condensed Consolidated Financial Statements," for details.

**Net loss.** Net losses of \$19.6 million and \$47.2 million were recognized for the nine months ended September 30, 2018 and 2017, respectively, as a result of the foregoing.

### **Effect of Inflation**

The rates of inflation experienced in recent years have had no material impact on our financial statements. We attempt to recover increased costs by increasing prices for our services, to the extent permitted by contracts and the competitive environment within our industry.

### **Liquidity and Capital Resources**

**Cash flows provided by operating activities.** Net cash provided by operating activities from continuing operations for the nine months ended September 30, 2018 and 2017 was \$22.5 million and \$5.0 million, respectively, which was mainly the result of the net income from continuing operations of \$1.5 million compared to net loss from continuing operations of \$28.9 million for the nine months ended September 30, 2018 and 2017, respectively, adjusted for certain non-cash items, such as depreciation and amortization, share-based compensation expense, and write-off of long-lived assets, of an aggregate \$23.5 million and \$40.4 million, respectively. In addition, net working capital decreased by \$2.6 million and \$6.6 million during the nine months ended September 30, 2018 and 2017, respectively.

Net cash used in operating activities from discontinued operations for the nine months ended September 30, 2018 and 2017 was \$5.8 million and \$7.9 million, respectively. The decrease was mainly due to the additional two quarters of cash used in operating activities from discontinued operations during the nine months ended September 30, 2017, partially offset by cash payments of \$3.0 million related to the loss on disposal of discontinued operations during the first quarter of 2018.

As a result of the foregoing, net cash provided by operating activities was \$16.6 million for the nine months ended September 30, 2018, compared to net cash used in operating activities of \$2.9 million for the same period in 2017.

**Cash flows used in investing activities.** For the nine months ended September 30, 2018 and 2017, net cash used in investing activities was \$22.2 million and \$6.7 million, respectively, which was mainly comprised of net cash used in investing activities from continuing operations of \$20.8 million and \$1.4 million, and net cash used in investing activities from discontinued operations of \$1.4 million and \$5.3 million, respectively.

The increase in net cash used in investing activities for the nine months ended September 30, 2018 and 2017 was mainly due to capital contributed to red violet of \$19.7 million related to the Spin-off during the first quarter of 2018, with no comparable contribution in the previous year.

**Cash flows provided by financing activities.** Net cash provided by financing activities for the nine months ended September 30, 2018 of \$6.4 million was mainly the result of net proceeds of a registered direct offering in January 2018 of \$13.4 million and the net proceeds from the Refinanced Term Loan of \$67.2 million, which were largely offset with the repayments of the principal balance of Term Loans and Promissory Notes of \$72.2 million in March 2018 and taxes paid related to the net share settlement of vested

restricted stock units of \$2.0 million. Net cash provided by financing activities for the nine months ended September 30, 2017 of \$9.8 million was mainly the result of net proceeds from the Incremental Term Loan of \$14.0 million in February 2017, partially offset by repayments of long-term debt of \$3.5 million and taxes paid related to the net share settlement of vested restricted stock units of \$0.7 million.

As of September 30, 2018, we had non-cancellable operating lease commitments of \$15.3 million and a Refinanced Term Loan with a \$64.9 million principal balance. On October 10, 2018, we entered into a new non-cancellable lease agreement for a new office space with future lease commitments of \$14.9 million. For the nine months ended September 30, 2018, we funded our operations using available cash.

As of September 30, 2018, we had cash and cash equivalents of approximately \$17.4 million, an increase of \$0.8 million from \$16.6 million as of December 31, 2017, mainly as a result of cash provided by operations and financing activity, including net proceeds of a registered direct offering in January 2018 of \$13.4 million, largely offset by a \$19.7 million capital contribution to red violet in connection with the Spin-off. We believe that we will have sufficient cash resources to finance our operations and expected capital expenditures for the next twelve months.

We may explore the possible acquisition of businesses, products and/or technologies that are complementary to our existing business. We are continuing to identify and prioritize additional technologies, which we may wish to develop internally or through licensing or acquisition from third parties. While we may engage from time to time in discussions with respect to potential acquisitions, there can be no assurances that any such acquisitions will be made or that we will be able to successfully integrate any acquired business. In order to finance such acquisitions and working capital, it may be necessary for us to raise additional funds through public or private financings. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to stockholders.

During the first quarter of 2018, we refinanced an aggregate of \$70.0 million for the repayments of the remaining balance of the Term Loans and Promissory Notes of an aggregate amount of \$67.1 million on March 26, 2018 in connection with the Spin-off of red violet. As of September 30, 2018, the Refinanced Term Loan has an outstanding principal balance of \$64.9 million and matures on March 26, 2023. The Credit Agreement, along with the related Amendment No. 6 governing the Refinanced Term Loan and subsequent amendments, contain restrictive covenants which impose limitations on the way we conduct our business, including limitations on the amount of additional debt we are able to incur and our ability to make certain investments and other restricted payments. The restrictive covenants in the Credit Agreement, as amended, may limit our strategic and financing options and our ability to return capital to our stockholders through dividends or stock buybacks. Furthermore, we may need to incur additional debt to meet future financing needs.

The Refinanced Term Loan is guaranteed by us and our direct and indirect subsidiaries and is secured by substantially all of our assets and those of our direct and indirect subsidiaries, including Fluent LLC, in each case, on an equal and ratable basis. The Refinanced Term Loan accrues interest at the rate of either, at Fluent's option, (a) LIBOR (subject to a floor of 0.50%) plus 7.00% per annum, or (b) base rate (generally equivalent to the U.S. prime rate) plus 6.0% per annum, payable in cash. Principal amortization of the Refinanced Term Loan is \$0.9 million per quarter, commencing with the fiscal quarter ended June 30, 2018. The Refinanced Term Loan matures on March 26, 2023.

The Credit Agreement, as amended, requires us to maintain and comply with certain financial and other covenants, commencing with the fiscal quarter ended June 30, 2018. While we are in compliance with the financial and other covenants as of September 30, 2018, we cannot assure that we will be able to maintain compliance with such financial or other covenants. Our failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our indebtedness, which would materially adversely affect our financial health if we are unable to access sufficient funds to repay all the outstanding amounts. Moreover, if we are unable to meet our debt obligations as they come due, we could be forced to restructure or refinance such obligations, seek additional equity financing or sell assets, which we may not be able to do on satisfactory terms, or at all. In addition, the Credit Agreement includes certain prepayment provisions, including mandatory quarterly prepayments of the Refinanced Term Loan with a portion of our excess cash flow and prepayment penalties if we prepay the Refinanced Term Loan before the fourth anniversary of Amendment No. 6. As long as the Refinanced Term Loan remains outstanding, the restrictive covenants and mandatory quarterly prepayment provisions and prepayment penalties could impair our ability to expand or pursue our business strategies or obtain additional funding.

### **Contractual Obligations**

As of September 30, 2018, the Company has the following future contractual obligations:

(In thousands)	Remainder of 2018	2019	2020	2021	2022	2023 and thereafter	Total
Lease agreements	\$ 316	\$ 1,387	\$ 2,220	\$ 2,220	\$ 2,234	\$ 6,879	\$ 15,256
Debt	6,110	9,204	8,980	8,642	8,306	47,391	88,633
Employment agreements	288	713	—	—	—	—	1,001
Total	<u>\$ 6,714</u>	<u>\$ 11,304</u>	<u>\$ 11,200</u>	<u>\$ 10,862</u>	<u>\$ 10,540</u>	<u>\$ 54,270</u>	<u>\$ 104,890</u>

The lease agreements represent future minimum rental payments due under non-cancellable operating leases. The future cash payments related to the new operating lease are included based on an expected lease commencement date of November 15, 2018. Debt of \$88.6 million represents the payment of principal and estimated interest on the Refinanced Term Loan. Employment agreements represent agreements with certain executives, including our Chief Executive Officer, President, Interim Chief Financial Officer and Chief Operating Officer, which provide for compensation and certain other benefits and for severance payments under certain circumstances.

### Off-Balance Sheet Arrangements

As of September 30, 2018, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

### Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We periodically evaluate our estimates, including those related to revenue recognition, allowance for doubtful receivables, useful lives of intangible assets, recoverability of the carrying amounts of goodwill and intangible assets, share-based compensation and income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We note that as a result of the Spin-off of red violet on March 26, 2018 and the related change in our reportable segments, we now operate under one reporting unit rather than two for the purpose of goodwill impairment testing. For additional information, please refer to our 2017 Form 10-K. There have been no additional material changes to Critical Accounting Policies and Estimates disclosed in the 2017 Form 10-K.

#### *Recently issued accounting and adopted standards*

See Note 1(b), "Recently issued and adopted accounting standards," in the Notes to Condensed Consolidated Financial Statements.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk for the effect of interest rate changes. To date, we have not used derivative instruments to mitigate the impact of our market risk exposures. We have also not used, nor do we intend to use, derivatives for trading or speculative purposes.

#### **Interest Rate Risk**

We are exposed to market risk related to changes in interest rates. As of September 30, 2018, we have an aggregate principal amount of long-term debt of \$64.9 million, including current portion of long-term debt. Our Refinanced Term Loan accrues interest at the rate of either, at Fluent's option (a) LIBOR (subject to a floor of 0.50%) plus 7.00% per annum, or (b) base rate plus 6.0% per annum, payable in cash. Interest under the Refinanced Term Loan is payable monthly. The fair value of our debt will generally fluctuate with movements of interest rates, increasing in periods of declining rates of interest and declining in periods of increasing rates of interest.

A hypothetical 10% increase in market interest rates relative to our current interest rate would not have a material impact on the fair value of our outstanding long-term debt, net. Changes in interest rates would, however, affect operating results and cash flows, because of the variable rate nature of the Refinanced Term Loan. A hypothetical 10% increase or decrease in overall interest rates as of September 30, 2018 would not result in a material impact to interest expense for the next twelve months.

## **Item 4. Controls and Procedures.**

### **Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Interim Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of September 30, 2018. We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. Our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on the evaluation of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934), the Company's Chief Executive Officer and Interim Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of December 31, 2017, solely as a result of a material weakness in our internal control over financial reporting, as disclosed in our Annual Report on Form 10-K ("2017 Form 10-K") and discussed below. Management has concluded that the material weakness that was present as of December 31, 2017 was also present as of September 30, 2018, and as such determined that the Company's disclosure controls and procedures were not effective as of such date.

### **Previously Identified Material Weakness in Internal Control Over Financial Reporting**

As previously disclosed in our 2017 Form 10-K, we did not adequately design and implement controls related to the recording of non-cash stock-based compensation, specifically related to the measurement and recording of restricted stock unit ("RSU") issuances to non-employees.

### **Remediation Status**

To remediate the material weakness mentioned above, we started to incorporate the following changes into the processes, procedures and internal controls currently in place to:

- Ensure all stock-based compensation issuances to non-employees are reviewed quarterly and any change in status from an employee to a non-employee who had received an RSU issuance is identified timely and that the accounting treatment is evaluated and properly recorded in accordance with generally accepted accounting principles.
- Update the stock-based compensation accounting policies for non-employee RSU issuances and ensure that each non-employee stock-based compensation issuance has been specifically evaluated in accordance with the Company's policy.

As part of our ongoing monitoring effort of our internal control over financial reporting, we will report the progress and status of the above remediation efforts to the Audit Committee on a periodic basis throughout the year. Once placed in operation for a sufficient period of time, we will subject these process changes to appropriate tests, in order to determine whether they are operating effectively.

### **Changes in Internal Control Over Financial Reporting**

Except as noted above, there were no changes to our internal control over financial reporting during this quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

The Company is not currently a party to any legal proceeding, investigation or claim which, in the opinion of the management, is likely to have a material adverse effect on the business, financial condition, results of operations or cash flows. Legal fees associated with legal proceedings are expensed as incurred. We review legal proceedings and claims on an ongoing basis and follow appropriate accounting guidance, including ASC 450, when making accrual and disclosure decisions. We establish accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. To estimate whether a loss contingency should be accrued by a charge to income, we evaluate, among other factors, the probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of the loss. We do not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated.

In addition, we may be involved in litigation from time to time in the ordinary course of business. We do not believe that the ultimate resolution of any such matters will have a material adverse effect on our business, financial condition, results of operations or cash flows. However, the results of such matters cannot be predicted with certainty and we cannot assure you that the ultimate resolution of any legal or administrative proceeding or dispute will not have a material adverse effect on our business, financial condition, results of operations and cash flows.

### Item 1A. Risk Factors.

Our business, financial condition, results of operations, and cash flows may be impacted by a number of factors, many of which are beyond our control, including those set forth in our 2017 Form 10-K, the occurrence of any one of which could have a material adverse effect on our actual results.

There have been no material changes to the Risk Factors previously disclosed in our 2017 Form 10-K, aside from the following and except those risk factors that are specifically related to our previous risk management business and are no longer applicable to the Company following the Spin-off of red violet.

#### ***Our business and advertiser clients may be subject to sales and use tax and other taxes.***

The application of sales and use tax, goods and services tax, business tax and gross receipt tax on our performance marketing/advertising services is complex and evolving. In general, sales of tangible personal property are subject to sales and use tax unless a specific exemption applies, while services are generally excluded from sales tax unless specifically subject to sales tax. Advertising services are considered a service and are generally not subject to sales and use tax, except in a few states. Some states, including New York, impose a sales tax on "information services." In New York, sales tax explicitly excludes "advertising" services from sales and use tax although the distinction between excluded advertising services and taxable information services may be, in practice, unclear. Further complicating the determination of the sales taxability of services is the need to determine where the taxable sale occurs - at the origin of the service or at the destination where the service is consumed. Either or both of the origin jurisdiction's or the destination jurisdiction's laws may apply to a single transaction that spans two or more states.

In addition, many state governments are increasingly looking for ways to increase revenues to make up for sales tax revenues lost from online sales of merchandise where online merchants with no physical presence in a state have, in general, not been required to collect and remit sales taxes. Some jurisdictions have implemented laws that require remote sellers of goods and services to collect and remit sales taxes on sales to customers within the jurisdiction based on economic nexus - where the business exceeds a dollar volume or number of transactions in the jurisdiction - even when the seller has no physical presence within the jurisdiction. On June 21, 2018, the U.S. Supreme Court in *South Dakota v. Wayfair, Inc. et al*, overturned prior law which required physical presence for nexus and endorsed economic nexus as a basis for South Dakota to require online merchants to collect and remit sales taxes, even when the online merchant has no physical presence in the buyer's state.

Approximately half of the states in the U.S. have adopted economic nexus as a basis to require online merchants to collect sales tax. Most of the laws apply prospectively or have delayed effective dates. More states may be expected to follow suit. The impact of the *Wayfair* decision on our business is uncertain. In states that adopt economic nexus and also tax specified enumerated services, if our services are found to be subject to that state's sales tax on services, we may have to collect and remit sales tax, which adds complexity and compliance

costs and, due to the increased overall cost of our service, could make our service offerings less attractive and adversely affect our business.

***The General Data Privacy Regulation ("GDPR") adopted by the European Union ("EU"), which took effect on May 25, 2018, as well as other regulatory and legal developments, are imposing new requirements and restrictions on entities involved in the collection, use and storage of personal information. These changes could increase our costs or impact our ability to collect personal information and generate revenue therefrom.***

The GDPR imposes new requirements on entities and grants individuals new rights in connection with the collection, use and storage of the personal information of EU residents. Many of these new requirements are more restrictive than those under existing U.S. law, and the individual rights granted by the GDPR are more expansive than the rights typically granted to U.S. residents. For example, under the GDPR an EU resident must affirmatively opt-in to receive email marketing (unless there is another basis to send the individual email marketing, as expressly permitted under the GDPR), while U.S. residents can be sent commercial email unless and until they opt-out. The GDPR also grants EU residents the rights: (a) to be forgotten - the right to have their personal information removed from an entity's database (as well as the databases of all third parties that received the information from that entity); (b) to modify their collected data; (c) to restrict use of their collected data; and (d) to "data portability" - the right to request that collected data be provided to the individual in a machine-readable, usable format.

The GDPR applies to our UK operations to the extent that the UK remains an EU member state, and it is likely that our UK operations will require compliance with data protection laws substantially similar to the GDPR following any exit by the UK from the EU ("Successor Legislation"). Our UK operations have been designed, and are operated, in compliance with the GDPR. The fines for failing to comply with the GDPR are significant and the potential ways that the GDPR, or any Successor Legislation, could be applied to a business such as ours are uncertain. There can be no assurance that we will be able to maintain our UK operations in compliance with the GDPR or any Successor Legislation.

In addition, some of our advertiser clients have required that we deliver personal information to them that was collected and maintained in compliance with the GDPR for our U.S. operations. While we do not believe that the GDPR applies to our U.S. operations, if we are contractually required to comply with the GDPR in the U.S., that could increase our costs and expenses associated with providing advertising services.

We expect the trend towards enhanced regulation applicable to the collection, use, storage and sharing of personal information to continue. For example, California recently enacted the California Consumer Privacy Act ("CCPA"), which establishes requirements for businesses and grants individual rights similar to those contained in the GDPR. The CCPA, which takes effect in 2020, includes a right to be forgotten, a right for individuals to object to having their data shared with third parties and to be informed of what data is being shared. While significantly less restrictive than the GDPR, the CCPA will, nevertheless, require changes to our operations which may make it more challenging to operate our business as profitably as in the past.
