Adjusted EBITDA is defined as net income (loss) from continuing operations, excluding (1) income taxes, (2) non-cash loss on amendment of warrants, (3) interest expense (net), (4) write-off of long-lived assets, (5) depreciation and amortization, (6) share-based compensation expense, (7) acquisition and restructuring costs, and (8) litigation and certain other costs. Business Outlook - 2019

Fluent is providing revenue, media margin and adjusted EBITDA guidance for first quarter and full-year 2019, as follows:

For first quarter 2019:

- Revenue is anticipated to be \$65.5 - \$66.5 million, or 17% - 19% over Q1 2018.
- Media margin is anticipated to be in the range of \$22.5 - \$23.5 million.
- Adjusted EBITDA is anticipated to be in the range of \$8.8 - \$9.6 million.

Full-year 2019:

- Revenue is anticipated to be \$285 - \$293 million, or 14% - 17% over full-year 2018.
- Media margin is anticipated to be in the range of \$100 - \$106 million.

Fluent is not able to provide a reconciliation of projected media margin or adjusted EBITDA to the most directly comparable expected GAAP results, due to the unknown effect, timing and potential significance of certain operating costs and expenses, share-based compensation expense, depreciation and amortization expense, interest expense (net), and the provision for (benefit from) income taxes.

Definitions, Use and Reconciliation of Non-GAAP Financial Measures

The following non-GAAP measures are used in this release:

Media margin is defined as revenue minus cost of revenue (exclusive of depreciation and amortization) attributable to variable costs paid for media and related expenses. Media margin is also presented as percentage of revenue.

Adjusted EBITDA is defined as net income (loss) from continuing operations, excluding (1) income taxes, (2) non-cash loss on amendment of warrants, (3) interest expense (net), (4) write-off of long-lived assets, (5) depreciation and amortization, (6) share-based compensation expense, (7) acquisition and restructuring costs, and (8) litigation and certain other costs.

Adjusted net income is defined as net income (loss) from continuing operations, excluding (1) non-cash loss on amendment of warrants, (2) write-off of long-lived assets, (3) share-based compensation expense, (4) acquisition and restructuring costs, and (5) litigation and certain other costs. Adjusted net income is also presented on a per share (basic and diluted) basis.

Below is a reconciliation of media margin from net income (loss) from continuing operations, which we believe is the most directly comparable GAAP measure.

We present media margin, adjusted EBITDA and adjusted net income as supplemental measures of our financial and operating performance because we believe they provide useful information to investors. More specifically:

Media margin is a measure of the efficiency of the Company's operating model. We use media margin and the related measure of media margin as a percentage of revenue as primary metrics to measure the financial return on our media and related costs, specifically to measure the degree by which the revenue generated from our digital marketing services exceeds the cost to attract the consumers to whom offers are made through our services. Media margin is used extensively by our management to manage our operating performance, including evaluating operational performance against budgeted media margin and understanding the efficiency of our media and related expenditures. We also use media margin for performance evaluations and compensation decisions regarding certain personnel.

Adjusted EBITDA is another primary metric by which we evaluate the operating performance of our business, on which certain operating expenditures and internal budgets are based and by which, in addition to media margin and other factors, our senior management is compensated. Adjusted EBITDA excludes from net income (loss) from continuing operations items including (1) income taxes, (2) non-cash loss on amendment of warrants, (3) interest expense (net), (4) write-off of long-lived assets, (5) depreciation and amortization, (6) share-based compensation expense, (7) acquisition and restructuring costs, and (8) litigation and certain other costs, certain of which are recognized and recorded under GAAP in particular periods but which might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded, or may be non-recurring in nature. We consider an item to be non-recurring if it is infrequent or unusual and has not occurred in the past two years or is not expected to recur in the next two years, in accordance with SEC rules.

Adjusted net income and the related measure of adjusted net income per share exclude from net income (loss) from continuing operations items including (1) non-cash loss on amendment of warrants, (2) write-off of long-lived assets, (3) share-based compensation expense, (4) acquisition and restructuring costs, and (5) litigation and certain other costs, certain of which are recognized and recorded under GAAP in particular periods but which might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded, or may be non-recurring in nature. We believe adjusted net income affords investors a different view of the overall financial performance of the Company than adjusted EBITDA and the GAAP measure of net income from continuing operations.

Media margin, adjusted EBITDA and adjusted net income are not intended to be performance measures that should be regarded as an alternative to, or more meaningful than, net income (loss) from continuing operations as indicators of operating performance. None of these metrics are presented as measures of liquidity. The way we measure media margin, adjusted EBITDA and adjusted net income may not be comparable to similarly titled measures presented by other companies and may not be identical to corresponding measures used in our various agreements.
