Use and Reconciliation of Non-GAAP Financial Measures

Management evaluates the financial performance of our business on a variety of key indicators, including adjusted EBITDA. Adjusted EBITDA is a non-GAAP financial measure equal to net loss, the most directly comparable financial measure based on US GAAP, plus net loss from discontinued operations, interest expense, income tax (benefit) expenses, depreciation and amortization, share-based payments, and other adjustments, as noted in the table below.

	Three Months Ended September 30,		Nine Months Ended September 30,

Adjusted EBITDA	\$ 3,156	\$ (2,205)	\$ 8,647	\$ (4,392)

We present adjusted EBITDA as a supplemental measure of our operating performance because we believe it provides useful information to our investors as it eliminates the impact of certain items that we do not consider indicative of our cash operations and ongoing operating performance. In addition, we use it as an integral part of our internal reporting to measure the performance of our reportable segments, evaluate the performance of our senior management and measure the operating strength of our business.

Adjusted EBITDA is a measure frequently used by securities analysts, investors and other interested parties in their evaluation of the operating performance of companies similar to ours and is an indicator of the operational strength of our business. Adjusted EBITDA eliminates the uneven effect across all reportable segments of considerable amounts of non-cash depreciation and amortization and the non-cash effect of share-based payments.

Adjusted EBITDA is not intended to be a performance measure that should be regarded as an alternative to, or more meaningful than, either operating income or net income as indicators of operating performance or to cash flows from operating activities as a measure of liquidity. The way we measure adjusted EBITDA may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.
